EXPERIENCE

Village Schools International — *Program & Systems Lead*

OCTOBER 2021 - PRESENT

Led cross-country program operations across 6 national organizations supporting 93 schools, 900+ staff, and 19,000+ students. Designed and implemented integrated financial, HR, and academic data systems to improve reporting accuracy, audit readiness, and organizational decision-making. [See Projects below]

USA D.O.D., PSNS and CFAY — *Mechanical Engineer*

AUGUST 2019 - SEPTEMBER 2021

Supported mission-critical mechanical systems at active naval installations. Coordinated across departments to maintain uninterrupted operations in safety-critical, high-risk environments.

PuppTech, Denver — *Mechanical Design Engineer*

SEPTEMBER 2018 - APRIL 2019

Conducted iterative mechanical design of protective casings for sensitive electronics. Coordinated with electrical engineers and manufacturing partners to ensure environmental integrity and production feasibility.

EDUCATION

Colorado School of Mines, U.S.A. — *Mechanical Engineering*

AUGUST 2015 - MAY 2019

Bachelor of Science in Mechanical Engineering

Epitech, France — *Information Systems Architecture*

SEPTEMBER 2026 - PRESENT

BAC+3 Program in I.S.A. Following with M1&M2 (2027-2029)

PROJECTS

Designed and implemented a multi-country Human Resource Management System supporting 900+ employees across 6 national organizations.

Built payroll and government taxation workflows aligned with local compliance requirements across multiple jurisdictions.

Developed academic records and analytics systems covering 19,000+ students across 93 schools.

Established live internal audit and data validation systems to improve financial transparency and reporting accuracy.

SKILLS

Program & Operations:

Systems Implementation, Cross Cultural Coordination, International Program Leadership.

Technical:

JavaScript, Python, Google Workspace Automation

Engineering:

Mechanical Design, CAD, MATLAB

AWARDS

Harvey Scholar: a full scholarship awarded to students who actively seek to pay it forward in both their personal and professional lives.
